

Sharing The Load

At Hilton Main Construction, we specialise in providing professional services for a variety of customers.

Whilst we do compete with other suppliers in the area, we believe that it is our customer service that helps us stand apart and it is what brings our customers back to us time and time again. From large works for prestigious companies to small, domestic jobs, our quality of work and service remains the same.

Hilton Main have proven to be leading provider of grab hire, plant movements and aggregate delivery in the West Midlands.

We have an attitude that at Hilton Main, we will work with you to get any job done. We pride ourselves on quality service.

2024

Services

Hilton Main Construction Ltd operates a fleet of eight 32-tonne grab lorries, which are available for hire.

In addition to this, we can supply all types of aggregates at competitive rates. These can be delivered directly to site and either tipped or grabbed off, depending on your needs. We can also provide waste removal services.

The transport department also offers two 8x4 insulated tippers, an articulated bulk tipper and an articulated extendable low loader. This means that Hilton Main Construction can also offer you the opportunity to relocate your heavy plant and machinery.

Furthermore, we operate three insulated tarmac hotboxes, five gully tankers and four flat bed cranes in our fleet.

We provide a fully insured and professional service, with our staff trained to CPCS standard.
